WEATHER OF CONCERN

Weather of Concern

- A Winter Storm approaching Northern California will produce rain and strong winds this evening into Sunday.
 - Forecast rainfall totals for the entire weekend are up to ~1.50" for Napa, Sonoma, Lake, and Mendocino County burn scars and up to ~2" for the Sierra foothills.
 - Snow levels will drop to 4000-5000 ft Sunday evening, where snow accumulations of 6"-12" on many of the Sierra passes are possible.
 - Heaviest rains are forecast to remain north of the Helena and Redwood Valley burn scars.
 - Potential runoff impacts over wildfire burn scars are low for a threat of flash flooding, in the vicinity of the Detwiler and Pier Fires, as well as Highway 140 in Yosemite National Park.

Active Weather Warnings, Watches and Advisories by County:

WEATHER SYNOPSIS BY REGION

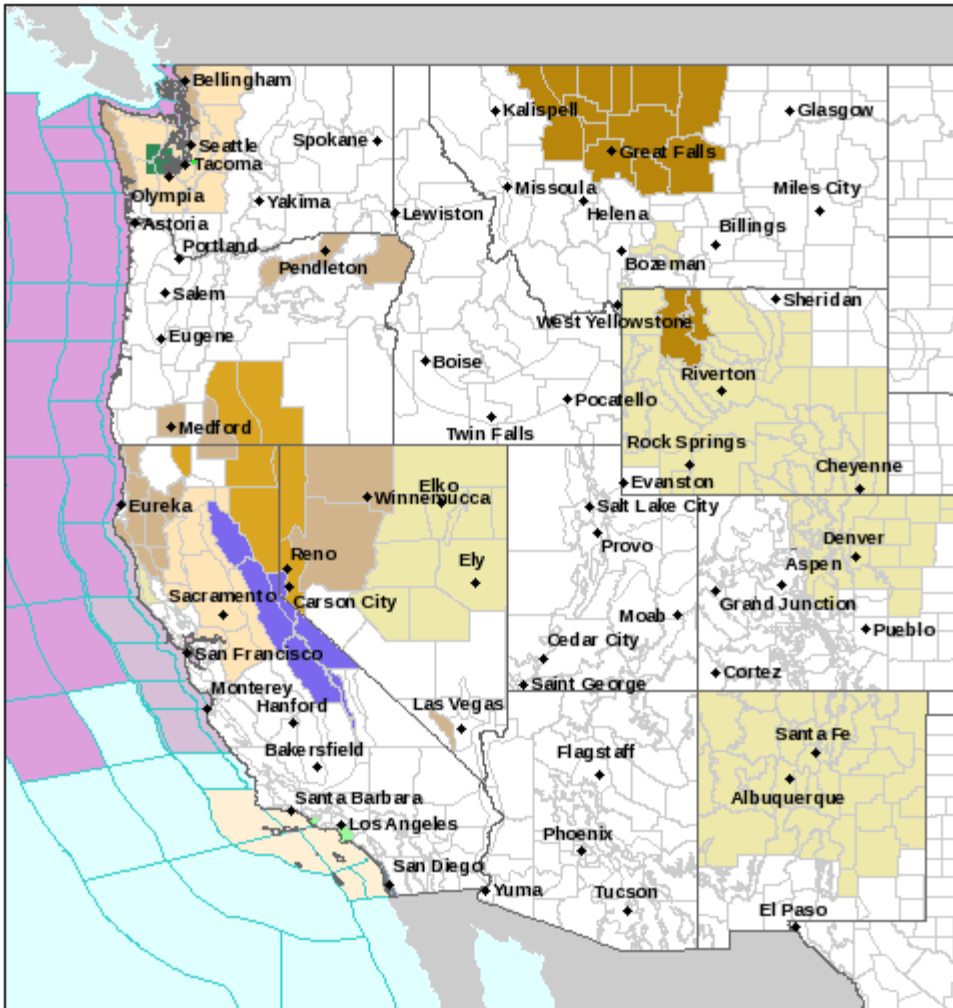

NORTHERN CALIFORNIA

Light rain may start as early as today, however the bulk of the rain will fall tonight and Sunday as a cold front from the Gulf of Alaska combines forces with a moist weather system from the subtropics. Another round of precipitation will arrive Sunday night as snow levels fall to around 4000 feet by early Monday morning. Rain showers will begin Sunday afternoon and will transition to snow during the evening hours at pass level.

SOUTHERN CALIFORNIA

Above normal temperatures are forecast for today. A low will arrive Sunday for possible precipitation from Santa Barbara and northward, then the possibility of precipitation should spread to Los Angeles by Sunday night, and into Monday. A trof with a developing upper low at its base will move closer to the Central Coast on Sunday. Clouds will increase and thicken over San Luis Obispo and Santa Barbara counties while Ventura and Los Angeles counties will have partly cloudy skies. Onshore flow returns and heights will fall. Max temps will cool across the area with the greatest drops north of Pt Conception. Most of the area will not see rain during the day except for the coastal areas from Cambria north later in the afternoon.
